**LICENSED NURSING ASSISTANT**

(This course does not apply toward the Nursing degree program.)

A 106-hour program with 40 hours of classroom instruction, 60 hours of group clinical instruction, and 6 hours of lab. The State Board of Nursing regulates attendance. The classroom instruction portion is delivered at the College one day a week during the semester. The lab is held two days during the semester, usually Monday and Wednesday of the sixth week. The group clinical instruction is arranged at a care facility and can entail Saturday and Sunday participation (after the lab has been held and the class has met for 16 hours). At the conclusion of the program, all students are administered a written and a clinical assessment of skills to certify that they have achieved required competencies. This final evaluation is required by the NH Board of Nursing for an additional fee of \$160 payable to LRCC at the end of the course.
