

Come in, we're
OPEN

Looking for ways to save at your business?

New Hampshire Electric Cooperative, a NHSaves partner, can provide incentives on a variety of energy efficiency measures to help reduce your operating costs while improving the comfort and operation of your business.

- LED Lighting can save 50-75% depending on existing lighting systems and last more than 5 times as long as fluorescent lighting. There are options and styles to fit any need.

INCENTIVES OF UP TO 75% OF MATERIAL AND LABOR COSTS ARE AVAILABLE.

- Commercial refrigeration equipment: Cost effective and can save energy that include door heater, fan controls, and more.

INCENTIVES OF UP TO 75% OF MATERIAL AND LABOR COSTS ARE AVAILABLE.

- Heating and Cooling: Air-source Mini-splits (Heat Pumps) provide exceptional heating and cooling while boasting efficiencies of up to 400%!!

INCENTIVES OF \$500/TON ARE AVAILABLE, OR \$750/TON ARE AVAILABLE WHEN ALSO WEATHERIZING YOUR BUILDING.

- Building shell improvements: Weatherization/air sealing and insulation can greatly reduce heat loss while significantly improving occupant comfort. When paired with a heat pump, incentives of up to 75% of the incremental cost are available for new construction project and up to 44% of the project cost for retrofit projects.
- Custom Incentives may be available for cost effective energy saving projects
- Technical Assistance is available. If you are looking for some guidance on improving the efficiency of your building, we offer assistance through Audits, Design Charrettes, Plan Review and more. Let us help you.

Pre-approval is required for program participation.
