INTERDISCIPLINARY STUDIES

Why Interdisciplinary Studies?

The Interdisciplinary Studies degree is for students seeking to create a self-designed program to meet personal or career goals, complete course work to meet admission requirements for a desired program or wishing to matriculate while awaiting admission to competitive degree programs. The Interdisciplinary Studies experience provides students with an alternative to the existing programs available at Lakes Region Community College.

The program provides flexibility by encouraging students to select courses from multiple academic disciplines and allows students design their own educational path. Students in this program are required to consult with an academic advisor to gain approval of their degree plan.

The Interdisciplinary Studies degree offers two options:

Option One: Students selecting this option will work with their academic advisor to create an area of concentration consisting of thirty-six credits. Within the area of concentration, students must earn at least eight (8) credits in 200-level courses. Students awaiting admission to the Nursing program can utilize this option to fulfill admission pre-requisites and/or general education requirements.

Option Two: Students may work with an academic advisor to determine a path with more than one area of focus. This option is for those exploring different career paths as they are undecided on one program. Students will work with their academic advisor to develop an area of interest, which may result in transfer to an established degree program; however, successful completion of an approved exploration can result in the awarding of this degree. Students are required to earn a least eight (8) credits in 200- level courses to earn this degree.

Estimated Program Cost:

Year 1: \$6,235

Year 2: \$6,665

for a total of \$12,900

**Costs are based on in-state tuition and do not include fees, supplies, or books. Additional fees may apply; all prices are subject to change.*

Transfer Pathways

LRCC graduates have successfully transferred to many colleges and universities including:

- Plymouth State University
- University of NH
- Keene State College
- Colby Sawyer College
- Granite State College
- Southern New Hampshire University
